*Minimal interference
to vehicle trim.*

*Transferable to
your next vehicle.*

With our engineering background, we are in the unique position of being able to cover the five basic requirements for this type of work 'in house'.

1. **DESIGN** – Meeting the requirements of the individual, yet staying within the legislative guidelines.
2. **DRAFTING** – Engineering Plans, Reports & Correspondence.
3. **MANUFACTURE** - Full engineering workshop facilities.
4. **INSTALLATION** – Fitment of relevant componentry and/or equipment.
5. **APPROVAL** – Liaise with Queensland Transport re: State & Federal requirements, fitment of Modification Plate and issue of 'Certificate of Modification' for the work carried out, if required.

Supply and fitment of the “REBEN”™ Hand Control System.
